

5 reasons

you may need a balloon light for Next Event

Our balloon lights may help solve below problems/challenges

- 1) Creates/compliments excellent and efficient illumination where outdoor lighting condition is not ideal. Either on different voltage option 100-120V/220-240V AC etc. And li-ion rechargeable battery pack 24V/48V is an available option to choose to back up the greener work. **1 unit balloon light =4 units** of same power regular lights!!
- 2) DMX control option is available for **LED single/double White** (3200/4300/6500K), **LED RGB/RGBW/RGBWW** (200/400w), **Tungsten Halogen** (3200k 2000w-4000w), Dimmable. The versatility makes it perfectly work as an organic part of your DJs and other lighting show and DMX-control equipment activities that makes your event into next higher level.
- 3) Creates special atmosphere at event site with styled (shapes or colors or patterned) balloon envelope, which your regular event lighting is never able to render.
- 4) Creates refreshing new Brand Awareness with very different showcase envelope by digital printing or vinyl graphic.
- 5) They can adapt to Tripod mount or hang from ceiling or Truss mount (Air filled), Flying (helium filled), and Floating on a buoyance, or other forms you'd imagine.

4 important and unique functions our Balloon Light has:

Illumination,

Thanks to its 360-degree lamination feature, it renders a wonderful, powerful and graceful. And light source options include. We have a variety of power watt options to suit different needs - LED200w, 400w,600w, 800w; Tungsten 2000/4000w; HMI1.2/2.4K;

DMX working group,

The balloon light unit is not a separate unit, as it could establish network with other DMX512 equipment which makes it an organic part of your DMX working group, as an element to dim, flash, breathe etc.

Branding Loader,

A character brand, an image, single/complex patterns, or a full artwork printing can be rendered digitally on the balloon envelope – mostly popular sphere in diameter 3.3/5.2/6.6ft etc. with lighting as background. A flexible vinyl graphic is friendly as well on shiny material envelope. The diameter of spherical balloon envelope has 3ft/90cm, 4ft/130cm, 5ft/160cm, 6ft/200cm etc.

Communications

Apart from branding, the balloon light is also able to work as décor. Element to the amplify Event Theme, or as simple signal indicating functional area or directions.
